1. Introduction

USB Link Adapter is the premier file management and quickly data search device with its Go! Suite utility software. If you connecting the USB link cable in the end of Flash Drive, you can share and transfer the data between two PCs directly.

USB Link Adapter provides simple USB2.0 Plug-n-Play functionality in two easy steps – connect a USB port on both PCs and start transferring data.

The USB Data Transfer Cable also works between different operating systems, Windows 2000, XP and Vista to easily setup your new computer with a fast data transfer rate. Now you can easily share music, videos and dada file s with your friends or co-workers. There are no file sizes or capacity limitations like when using external storage media that can easily be lost or become full.

Features

- Fully compatible with High-speed USB 2.0
- Easy Plug and Play and automatically load onto your system.
- Convenient compact design
- Bi-directional data transfer between two computers or different operating systems：
  - Notebooks and desktops.
  - Windows XP/Vista and 2000 operating system
- Fast transfer rate of up to 16MB/second
- Unlimited file size or media capacity limitations such as those found with external media cards
- New Go! Suite Software applications program loads automatically and easy manager / transfer the data

Package Contents

- Quick Installation Guide x 1
- USB Link Adapter x 1
- CD (Driver & User’s Manual) x 1

System Requirements

- Windows® 2000 , Windows® XP SP2 , Vista™
